Just an idea for those who don't have Internet or a computer at home:

1. Students who do not have access to internet.
2. Create a photo journal on google slides or PowerPoint for each day that they are out of school.
3. Insert a picture (those that do not have internet will still take their picture and insert it when they return to school) and write a paragraph of what they did that day and/or how they feel about being stuck inside.
